2020-106-A
2918 86

May 22, 2020

AAA Utilities has not experienced any effects of Covid 19 thus far. Since our billing cycle runs every other month, for the majority of our water systems, it's really too early to tell what the impact of Covid 19 will mean for our business, after the protections have all been lifted. It is our hope that our customers will see the value of running water and realize that we have continued to meet their water needs and have had zero assistance in doing so.

Sincerely,

Bonnie Swearingen

AAA Utilities, Inc.
